
INTRODUCING OFM SOLUTIONS

Outsourced Financial Management (OFM) Solutions provide a comprehensive range of outsourced financial services to high potential start-ups and high-growth companies in the technology, software and other sectors. OFM Solutions provide all the services of an in-house finance function but on a more flexible and cost effective basis.

OFM Solutions provide and support solutions, which will improve the financial management of your business. We have detailed knowledge of the finance environment and understand the challenges being faced by companies in the technology sector. We provide scalable solutions to finance issues that adapt as your business requirements change. Using the services of OFM Solutions will allow your management focus on the core aspects of your business.

OUR SERVICES

OFM Solutions provide a complete range of outsourced services designed to effectively manage all finance aspects of your business.

FINANCIAL MANAGEMENT

Financial Planning – OFM Solutions provide professional, effective and robust financial planning of your business going forward. Effective financial planning helps you better understand and manage the challenges and likely future challenges of your business as the business develops.

Financial Reporting – OFM Solutions provide best practise financial reporting. The clear, timely and accurate financial reporting provided enables your management team and Board to improve its decision making process and focus on the core business.

Cash Management – OFM Solutions will help you maximise control of your cash reserves, ensure rigorous debt collection processes and expenditure planning. Improved cash management will assist with improved visibility and predictability of your business's future cashflows.

Cost Management – OFM Solutions will assist you in ensuring that your cost base is in line with your peer companies.

Operations Management - OFM Solutions can provide efficient billing, debtors management and ensure effective finance operations management in your business.

ACCOUNTING, TAX & CORPORATE GOVERNANCE

Accounting – Full financial and management accounting services, record keeping, assistance with accounting system selection and implementation.

Tax – Corporation tax, PAYE, VAT and a range of other tax services.

Corporate Governance – Statutory financial reporting and company filings. Company Register administration and Board Secretarial duties.

FINANCING & OTHER SERVICES

Financing – OFM Solutions will help prepare you for a fund-raising, we'll assist with the preparation of your business plan, we'll ensure that your financial projections are properly stress tested and ensure the projections will answer many of the questions likely to be posed by a VC or other potential investor. We will prepare you for financial due diligence and present to potential investors as part of your management team.

Commercial Contracts – OFM Solutions will assist in getting you the best possible contractual terms and advise on revenue recognition.

EI Grants - OFM Solutions have particular expertise and will assist with the whole EI grant process from application to claim.

TESTIMONIALS

'OFM Solutions provide best practise financial reporting and financial planning skills, they have certainly added value, reliability and consistency to our Finance function'.

Philip Sharpe, Director, Danú Technologies

'OpenJaw Technologies has been using the services of OFM Solutions for a number of years. We were impressed by their ability to work with us as OpenJaw transitioned from a small technology start-up company based in Dublin to one with an international presence and over 40 customers worldwide. OFM provides an efficient, timely and cost effective solution to our Finance function; an excellent team and well recommended!'

Keiron Branagan, Chief Operations Officer, OpenJaw Technologies
